

## Searches

### 1. Find Parcels (Basic)

- NOTE: If you search for more than one thing at a time, the parcel will have to meet all the criteria not just one of them (ex. Owner : Monticello, Parcel: 78-22 will look for parcel 78-22 owned by Monticello)
- Click on the search function on the left side of the screen
- Under the dropdown you will see many different search types
- For basic you can type in address, owner, parcel (autofill, must use hyphens), and the short parcel ID (also autofill and must use hyphens)
- Type in the criteria you would like and hit search
- You can then hit "Show All on Map" or double click on a single entry to zoom you to that area in the map.

The screenshot displays the GIS Web search interface. At the top, the text 'REDEMPTION COURT GIS Web' is visible. A navigation menu on the left includes icons for Search, Selection, Maps, Location, Draw, and Share. The main search area is titled 'Search' with a help icon. A dropdown menu is set to 'Find Parcels (Basic)'. Below this, there are four input fields: 'Address', 'Owner Name', 'Parcel ID', and 'Short Parcel ID (e.g. 78-22)'. At the bottom of the search area, there are 'Search' and 'Reset' buttons. The background shows a map of Rockbridge Co. and Loudoun Co.

**2. Find Parcel (Advanced)**

- Same steps as above but this one gives you more ways to search, for example value, zoning, land use, etc.

**3. Find Parcels by Subdivision**

- You can either scroll to the name you want to find or start typing and it will autofill
- Use this to search for all parcels in the same subdivision

**4. Find Parcels by Sale Date**

- You can use this function to search by sale date, sale price, and/or subdivision

**5. Find Roads**

- You can use this function to search by road name or route number, they both autofill

**6. Find Public Notice Signs**

- You have to know the sign number to type in and zoom to that area

**7. Find E911 Road Signs**

- You can use this function to search by road name, it is autofill

**8. Find New Addresses**

- You can use this function to search by permit, year, or street.
